Project Title:

**Syllabus Repository, Revision and
Versioning System (SRVS)**

RELEASE NOTES

Application for 25 %, Version # 2

Approved by:

Engr. Eutequio III Zante L.
Palermo

Ms. Jullene Jane
Evangelista

NEW FEATURES	FOR IMPROVEMENTS	FIXES
<i>To be enumerated here are those that are not yet added in the previous iteration</i>		

Test no.	Test	Expected Result	Pass/Fail	Corrective action
1	API Structure	Lacking parameters/request body Correct values for other parameters insert/create syllabus		
2	Database Schema	Syllabi -uploaded by userID -subject -enrolled subjects for students		
3	Account Registration	Department must view only scoped department data The system should be able to map which syllabi per subject a student can view based on the subject enrolled		
4	User Login	Registered users can successfully log in using valid credentials, while invalid credentials are rejected with an appropriate error message		

5	Forgot Password	Users can successfully reset their passwords by entering their respective current passwords then add their new passwords.		
---	-----------------	---	--	--

Additional Feature: *(those not mentioned in the approved proposal)*
